Abel González Vidal

+34 646.08.51.88 • Madrid, Spain • gonzalezvidalabel@gmail.com • linkedin.com/in/abelgv

Platform Engineer with extensive experience in cloud infrastructure, CI/CD pipelines, and container orchestration. Proficient in Kubernetes, Terraform, and AWS, with hands-on experience in data platforms/Snowflake, and a strong focus on scalability and performance optimization.

EXPERIENCE

Platform Lead   Nov. 2017 - Present
Nextail| Remote

Transitioned the company from manual operations to automated, cost-efficient, high-availability solutions.

Developed tooling for a 26-member tech team, catering to both the development experience and IA team requirements.

Managed infrastructure using Terraform, EKS, AWS, Dagster and Data/ML solutions (Snowflake).

Implemented enterprise identity solutions with Okta.

Led the platform team in migrating from an Aurora/Redshift solution to Snowflake

Integrations Team Lead   Feb. 2016 -Nov. 2017
HundredRooms | Palma de Mallorca and Madrid

Led a team of 4 developers in scraping provider data for up-to-date pricing and availability of apartments using Python.
Later I moved to a Platform role, focusing on creating and managing GKE, CI/CD and Google Cloud.

Software Developer   Dec 2014 - Feb 2016
The Motion | Madrid

Python developer. The product was a render farm designed for After Effects videos, leveraging AWS's autoscaling platform for optimized performance
